& Seedstock Plus Showcase Sale XV
September 19, 2020 * 1 p.m.
Kingsville Livestock, Kingsville, MO***

The Complete Dispersal of Oak Ridge Farms & Seedstock Plus Showcase Sale XV

September 19, 2020 * 1 p.m. * Kingsville, Livestock, Kingsville, MO

Driving Directions: For those of you with a GPS - the street address of the Kingsville Livestock Auction is: 1630 SW State Route 58, Kingsville, MO 64061

Coming from the east: I-70 to exit 49 - hwy 13 south to Warrensburg. West on hwy 50 to hwy 58. turn south on 58 (which will curve back to the west) go thru Holden. Sale barn will be on south side of hwy 58 prior to getting to Kingsville.

Coming from the west or Kansas City: The best way to come would be to take hwy 50 to hwy W south to Kingsville - turn east on 58 and sale barn will be on south side of hwy outside of town.

Coming from the south: Take hwy 2 east at Harrisonville. Turn north on hwy T. turn east on hwy 58 and sale barn will be on south side of hwy east of town.

Sight-Unseen Purchases:

If you cannot make it to the sale, please visit with us about your specific needs and budget. We will purchase females on your behalf and deliver them to you on approval. If you are satisfied with the quality and price, then they are yours. If not, you don't own them. Call the Seedstock Plus office toll free at 877-486-1160 or John's cell phone at 660-734-1165 or Matt's cell phone at 660-734-2739.

Internet Bidding:

The sale will be available to watch and bid real time at www.dvauction.com

1. Create an account under the 'create new account' tab.
2. Apply for bidding by clicking 'apply for bidding' in the upper left corner of the screen. AT LEAST 24 HOURS PRIOR TO THE SALE!
3. Tune in to the sale to make your purchases!

Travel:

Commercial Air Service is available to Kansas City, MO. (about 2 hours north west of sale) .If you need to be picked up at the airport, just let us know in advance!

Accommodations:

Comfort Inn, Harrisonville
(816) 884-4124

Comfort Inn, Warrensburg
660-429-4848

Holiday Inn Express, Warrensburg
660-656-2020

Super 8 Motel, Warrensburg
660-429-2183

Days Inn, Warrensburg
660-429-2400

Trucking:

The breeders participating in this sale will work with buyers to facilitate cost effective trucking arrangements. Other qualified truckers are available. Let us know if you need assistance in making trucking arrangements.

Liability:

All persons attending the sale do so at their own risk. Sale hosts and/or sale management assume no liability for accidents, theft or damages occurring at the sale facility.

Lunch:

Food and drinks will be available to purchase at the sale barn cafe.

Health:

Interstate Health Papers will be available sale day.

Selling: 141 LOTS of Gelbvieh & Balancer Females!

Dear Cattle Enthusiast!

Welcome to the Complete Dispersal of Oak Ridge Farms and the 15th annual Seedstock Plus Showcase Sale. The cattle offered on this day will represent some of the best genetics available in our breed. Whether you are a new or existing breeder, I would strongly encourage you to participate in this unique sale offering. The females selling have eye appeal, excellent EPD profiles and the ability to make money in the fast-paced cattle business.

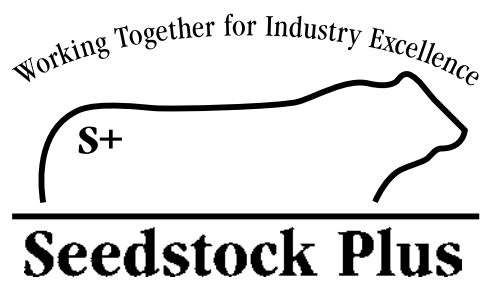

Let me speak first about the Oak Ridge Farms Complete Dispersal. This is truly a unique opportunity to purchase outstanding Gelbvieh & Balancer females. The saying "Timing Is Everything" is very appropriate in this instance. Dustin Cross has been in the process of building a premier breeding program for Oak Ridge Farms. Purchasing top notch females, herdbulls and initiating an AI program to fulfill this goal. However, a family business purchase in the past year has consumed all of Dustin's time and has prompted the need to disperse this herd. Only the timing of the family decision has presented this chance to access the Oak Ridge Farms herd. The timing is right to benefit from a purchase from this offering that only happens at a complete dispersal. The Oak Ridge Farms cattle sell under the AGA Terms & Conditions for a Dispersal.

The Seedstock Plus Showcase Sale offering represents the best from the participating breeders of Seedstock Plus. These are elite females that are the 'pick of the herd' from these breeders. Potential donor cows, herdsire producers and herd building females are being offered. All of these females will have Genomic-Enhanced EPDs, have been sire verified, defect tested as needed and coat and polled tested. No mysteries, no surprises, a quality offering represented accurately. We pride ourselves on how we represent the cattle we market and stand behind them with a 100% guarantee.

Please join us for this outstanding offering of females. If Seedstock Plus can help in any way, please give us the opportunity to assist you.

Sincerely

John Burbank, CEO
Seedstock Plus

Selling 1 Pick of the 2019 Natural Born Spring Bred Heifers!

Mulroy Farms LLC is owned and operated by Tim and Michelle Mulroy along with our sons Blake 18 and Cameron 14. We are a diversified livestock and farming operation located near Holton, KS. We have been in the registered business since 2001. From the beginning, our focus has been on raising homozygous black, homozygous polled cattle with optimum performance and docility.

We have been members of Seedstock Plus since the beginning and find that they are like minded in the importance of data collection (including RFI testing) and utilizing it to improve the genetics. We select our herd bulls carefully for disposition, structure, EPDs and data. We offer semen on our herd bulls thru Seedstock Plus Genetics and Cattleman's Connection. Mulroy Farms is offering a pick from our 20 head of 2019 Spring Bred heifers! They are sired by Money Talks, Ready Cash, Stock Options, Bargaining Chip, Payin Bills and a son of EGL Lifeline. These bred heifers are all at least double black and double polled and will have DNA tests done prior to final selection.

They are all bred to Stonewall 51E. He was turned in 5/27/20 and pulled 8/20/20.

We are sure they will be calf raisers just like their mothers and can go to work in any herd. Exceptional opportunity to take your breeding program to the next level! We would also like to thank everyone for your business and support!

Selling 1 Pick of the 2018 Natural Born Fall Bred Heifers!

Mulroy Farms LLC is also selling a pick from our group of 25 - 30 Fall Bred Heifers and Pairs.

They are sired by Montana, Money Talks, Hole In One, Ready Cash, Stock Options, Banker 57A and Granite 180A. They were exposed from 11/25/19 to 2/21/20 to Stonewall and F185. They were preg checked and worked on 3/23 and called 2 to 4 months bred. These bred heifers are all at least double black and double polled and are the sisters to the bulls we sell through Seedstock Plus. We are sure they will be calf raisers just like their mothers and can go to work in any herd. We will start calving about the 1st of September so most of these females will be pairs by the time the purchaser is ready to pick! Keep that in mind!

Selling 1 Pick of the 2019 Natural Born Fall Open Heifers!

Mulroy Farms LLC third offering in this Showcase sale is a pick of our 2019 Fall Open Heifers! We will have about 40 head to choose from after we do another quality sort and take another 10 or so off the bottom of the group as commercial heifers. They are sired by Money Talks, Stock Options, Ready Cash, Montana, Payin Bills, Traeger, Final Answer 8E & Lifeline 5065E. There are Purebreds and Balancers in the group and all are at least double black and double polled and will have DNA tests done prior to final selection.

Selling Pick of the 2019 Bred Heifers!

Leon & Brian Dunn of Sandy Knoll Farm have been breeding Gelbvieh cattle for 38 years. They have focused on functionality along with data collection to identify superior genetics throughout the years. Feedlot, carcass, ultrasound, RFI and genomic data have played an integral part of their cattle management and selection. Sandy Knoll is offering 1 pick from their 2019 natural born spring bred heifers which consist of 90 head. The heifers are equally split between Purebreds and Balancers with 65%/35% black to red in color. They are sired by Cornhusker Red, Destination, Good Business 143B, Departure 052D, Burns Doubletime 1657D, Mr Twister 7207E, Dakota Crusader C337, as well as 10 SKF herd bulls. They were AI'd 4-9-19 to these calving ease sires: Allied, Commander 5906C (RA), Marble Tender, Napoleon 01E, Over Enshrined, Over For Justice, Ready Combat, Redneck, & SKF 029E. Pasture exposed for 60 days to SKF Allied 032E, Hooch, CRAN G38, and Leachman Money. The heifers will be preg checked and confirmed bred in October and then the buyer can make their selection. If desired, at Buyers risk and expense - the heifer can be left at Sandy Knoll Farm until spring. Since the buyers always seem to find the best one, SKF is retaining one flush of minimum 6 eggs at seller's expense and buyer's convenience.

Selling Pick of the 2019 Spring Bred Heifers!

Nelson Ranch, owned and operated by Drs. Jerry & Jo Ann Nelson was started in 1988 when I graduated from KSU as a veterinarian. We have 4 children, Jace, Joel, Judd, and Jerilyn. All have grown up around livestock, and competed in 4-H and FFA. We currently have 3 at Kansas State, while Jace works in construction. The 3 in college are in the livestock or veterinary curriculums. Nelson Ranch has been a total AI program since we started. We were very honored to be asked to become a member in Seedstock Plus when it started. It has flat worked for us.

John convinced me this year to sell a female in this sale. In the past, my bulls have done quite well and my females have been excellent producers for me. Any female bought from me should be good in anyone's herd.

The sires used on these heifers include: Stock Option, Deacon, Chip & Rainfall (Angus). These calves will be all black and polled. All heifers were AI'd by me on 04-01-2020. You'll have to drive a long way to find as many years of AI'd sired cattle in one package. Thank you for the privilege of offering our genetics!

75GV 25AN - This September female's mother, B834, was our pick of the J Bar M dispersal and boy does she excite us! 9216G is a Homozygous Black, Homozygous Polled Destination daughter that, in our opinion, is the best representative of the first set of ET calves out of that female. Great calving ease with growth and a maternal look, she is one that you need to find. The Lee Ann cow family has made a strong impact on many herds our breed. We believe strongly in this young female. Buy with confidence here.

Here is an exciting Purebred 94 female from the Belle Star cow family. Look at the exceptional EPD profile on this young female! Tremendous growth, maternal, and carcass values, combined with a great phenotype. Her mother is one of our favorite cows. Her future is limitless. Check her out on paper and in person. She is sure to impress.

Oak Ridge Farms Complete Dispersal

Fellow Cattlemen,

Two years ago, my family was presented an opportunity that we couldn't pass up. With that opportunity came a different set of circumstances that does not allow me to spend the time it takes to manage a Registered herd. After much thought and prayer, I believe it is in the best interest of the cattle to disperse and allow other fellow cattlemen to pick up where I left off. When I started this mission, I started with the mindset of building a premier herd. All the genetics in the offering are 100% Seedstock Plus sourced with the bulk of the offering originating from the Showcase Sales. From the onset, I built a program around being a grass farmer first and a cowman second. I did not pamper the cattle to get them to perform. If they could not thrive on grass, I moved them out of the herd. I focused on traits that I believe to be the profit center of a cow/calf operation such as fertility, functionality, efficiency, and productivity. To show some of this, look no further than the calving dates of the 2019 calf crop. Eighty-Six percent of the calf crop were born within 38 days. I worked diligently

to improve the EPD profile's of every animal in the herd by using an extensive AI program with breed leading sire's and backing them up were sire's like Zade, Symmetry, and Mr. Proficient. You can buy with confidence that these cattle have been sorted for the traits mentioned above and should prove their worth in your herd. Feel free to call anytime or look me up on sale day for any questions you might have.

Thanks

Dustin Cross

Destiny was our purchase in the Seedstock Plus South Missouri Sale in 2019 as the most complete package for a herd bull. He had an RFI score of -5.00 and a rank of #1 in the pen while gaining 4.11 ADG and a ratio of 109! He also put it all together with an IMF measurement of 4.46 and a ratio of 122! This is all reflected in his EPD profile and we hope, manifested in the first set of calves coming this fall!

55GV 26AN 19AR - Her mother sells as LOT 52 and a maternal sister as LOT 128. Her granddam 32Y is a donor dam at Burbank Cattle Company who has maintained her 366 day calving interval while being flushed. Her mother 29U is also a donor dam and goes back to a top female 17P. Very strong dam line behind this young female.

Her grandmother 'Witchcraft 967W' is the dam of 9 calves with a calving interval of 367 days and barely missing Dam of Merit status. She is the dam of Brandywine Zorro - herdsire for several years at Gatson Gelbvieh. This Hole In One daughter has that attractive, modern profile with a very marketable set of EPDs! Lots of possibilities with this young heifer!

Terms & Conditions

Terms: Terms of the sale are cash or personal check unless satisfactory credit arrangements have been made with the seller previous to the sale.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids shall be settled by the auctioneer and his decision shall be final. Mailed or telephoned bids will be handled with the strictest confidence.

Registrations & Transfers: Each animal which is offered and sold has a certificate of registry available at the time of sale. The seller is responsible for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

Purchaser's Risk: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold.

Announcements: Any errors or changes in information contained in the catalog will be announced from the auction block. Such announcements shall take precedence over information contained herein.

Rights and Obligations: The above terms and conditions of sale constitute a contract between the buyer and seller of each animal and shall be equally binding to both. Animals resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the parties connected thereto are not covered by the above terms and conditions of this sale. Neither the host farm, auctioneers, nor any other person connected with the management or conduct of this sale assumes any liability, legal or otherwise, except as set forth above.

DEFINITIONS AND GUARANTEES

HORNED: An animal with a horn growth affixed to the skull that has or has not been removed.

POLLED/SCURRED: An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.

POLLED: An animal with absence of horn growth (An animal can have scurs and still be genetically polled)

DOUBLE POLLED: An animal whose sire and dam are both polled or scurred, this gives this animal the possibility of being homozygous polled for the polled trait but it is not yet proven so.

HOMOZYGOUS POLLED: An animal who carries two polled genes, and will produce polled or polled/scurred offspring with every mating.

DILUTER GENE: A gene carried by some Gelbvieh cattle that affects the degree of red color in the hair coat. Bulls carrying this gene can produce gray calves when mated to black cows or cream colored calves when mated to each other.

DILUTER FREE: All Red Angus are free of the diluter gene as are all red Gelbvieh cattle resulting from a double black mating. Red Gelbviehs can also be proven diluter-free by mating to black cows and producing all red or black offspring

DOUBLE BLACK: An animal whose sire and dam are both black, which give the animal the possibility of being homozygous for the black trait but its not yet proven so.

HOMOZYGOUS BLACK: An animal who carries two black genes and has been proven by mating or genetically tested to produce black or black factor (gray when mated with diluter-based genetics) calves with every mating.
